DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a method of cleaning fabric with fluid, classified in class 8, subclass 137.
 - II. Claims 14-31, drawn to a wash cycle comprising recirculation, classified in class 210, subclass 409.
 - III. Claims 32-36, drawn to a method of drying fabric with air stream, classified in class 510, subclass 285.
 - IV. Claims 37-42, drawn to a method of removing impurities from wash liquor, classified in class 134, subclass 10.
 - V. Claims 43-54, drawn to an apparatus, classified in class 68, subclass 1.
 - VI. Claims 55-72, drawn to an apparatus with cross membrane, compressor, heat exchanger, classified in class D32, subclass 5.
 - VII. Claims 73-78, drawn to an apparatus with a wash chamber, storage tank and sensor, classified in class 68, subclass 19+.
2. Inventions I-VII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions are the 3 different apparatuses comprising different components, and the 4 different methods having different functions, different modes of

operation, and different effects: namely, a method of cleaning fabric, a method of drying fabric, a method of removing impurities and a method of recirculating wash liquor.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II-VII, restriction for examination purposes as indicated is proper.

5. A telephone call was not made to the attorney of record to request an oral election to the above restriction requirement of the 78 claims, since it is too complex in nature to effectively discuss over the telephone.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
